**"Your people do not need you to be unbreakable.
They need to see what you did after you broke."**

WHO I AM

I co-founded Jenisys Group Ltd, an American owned, Kenyan registered training and development company operating since 2008. I am a published author of three books and a curriculum writer.

I have been teaching and training across Africa since 2011, in Kenya, Uganda and Ethiopia, in boardrooms, at conferences and in churches. My work goes where most training does not: What people are carrying, what it costs them, and how to turn it into strength instead of burnout.

I am a wife, a mother and a grandmother. I bring wisdom, humor, truth and fire, and I make rooms laugh while they do difficult work. Nobody leaves without something they can use on Monday.
